

Director of Academic Support

Dear Bridgton Academy Families,

It is with great excitement that I introduce myself to you as the newly appointed Director of Academic Support here at Bridgton Academy. The Class of 2022 will represent my tenth year of involvement with BA and its remarkable students. My experience includes serving as a postgrad English teacher, as well as a public school teacher with a strong focus in developing classrooms that are accessible to *all* learners. This year I am looking forward to establishing connections with students and families alike; I believe these relationships are critical factors in the success of our students.

The last three years have found my husband, Head Hockey Coach Mike Meserve and our five children living in Sylvester Hall as a dorm family. Our time spent in the dorm has granted us a unique perspective of the needs of the young men attending Bridgton. I look forward to combining my experiences at the Academy and elsewhere in order to create a kind, caring community within the Academic Support Center. In that community it is my goal to support students in developing a confident self-image and ability to remain responsible and accountable to both themselves and the people around them.

Please do not hesitate to reach out if you have any questions or you would like to connect with me regarding the Academic Support Center or Focused Academic Coaching.

All my best,
Marie Meserve
