

COVID-19 Vaccination Policy

All students attending the 2022-23 school year are required to be vaccinated against COVID-19.

Students will need to have received both doses of the Moderna or Pfizer vaccine, or the single dose of the Johnson & Johnson vaccine no later than two weeks before the student's arrival on campus.

Documentation of vaccine administration can be sent to [Kate Tucker](#), School Nurse. Additional information on submitting vaccination and other medical records through our online health information portal, SchoolDoc, will be sent out by July 1.
